

Activity-2

Create an "Event Registration Form" with the following requirements:

1. Include a text field for the **Full Name** of the attendee (required).
2. Add an **Email Address** input field with HTML5 validation (required).
3. Use a **Date Picker** to select the **Event Date** (required).
4. Add a **Number Input Field** for the user to specify the **Number of People Attending** (required). Display the live value in an **output** field.
5. Add Radio Buttons for the user to select their Gender (Male, Female, Other).
6. Include a **URL** input field to provide the attendee's **personal or business website** (optional).
7. Add a **Dropdown List** to select the **Event Type** (Conference, Workshop, Seminar) (required).
8. Use a **Range Slider** to indicate the attendee's satisfaction level with the registration process (0-100).
9. Include checkboxes to select **Interests** (e.g., Networking, Workshops, Keynotes, etc.).
10. Add a **Submit Button** to finalize the registration.

Use only **HTML5 validation** to ensure proper input.
